180.00 OP

Sir:

Applicant is submitting copies of Forms PTO-1449 (SET I, SUPPLEMENTAL I, II, III, IV, V, VA, VI, VII, VIII, and IX and one other received by the U.S. Patent and Trademark Office on November 13, 1998) citing prior art that was considered by the same Examiner (as evidenced by the Examiner's initials) in parent application Serial No. 08/306,456 (now U.S. Patent No. 6,335,965). Applicant is also submitting substantially identical Forms PTO-1449 for the Examiner to initial with respect to the present application.

CERTIFICATE OF MAILING
(37 C.F.R. § 1.8a)

I hereby certify that this paper (along with any referred to as being attached or enclosed) is being deposited with the United States Postal Service on the date shown below with sufficient postage as First Class Mail in an envelope addressed to the Commissioner of Patents and Trademarks, Washington, D.C. 20231.

August 30, 2002
Date of Deposit

Reena Kuyper

Since submitting these Forms PTO-1449 with respect to parent Serial No. 08/306,456, other information or references had come to Applicant's attention (cited in a related application Serial No. 08/482,218) that may be of interest. Applicant respectfully notes that such information is not more relevant than the cumulative art of record before the U.S. Patent and Trademark Office. Nonetheless, Applicant respectfully submits this information again for the Examiner's independent consideration. An additional Form PTO-1449 that is captioned Supplemental X cites materials brought to Applicant's attention by a company named Vanguard Group, Inc. Applicant has also learned of a Brigham Young University (hereafter "BYU") BYU reference, likely, a thesis found in the BYU library, or possibly the BYU student registration system, that may be of background interest. Applicant was not provided with a copy of this reference and therefore cannot provide it to the U.S. Patent and Trademark Office. Supplement X also cites an article entitled "*100 Cool Call Center Things*," which describes when specific aspects of call center technology were introduced.

Also, Applicant submits an additional Form PTO-1449, captioned Supplemental XI, which cites patents recently cited by Examiner, in Applicant's related Application Serial No. 09/861,377. The undersigned is providing copies of references cited in Supplemental X. It is assumed that the Examiner can obtain copies of the patents cited in Supplemental XI on-line.

Applicant requests that under 37 C.F.R. 1.97(c), the accompanying Forms PTO-1449 that list references should be placed in this file to make it available for future access by others.

The items identified in this Information Disclosure Statement may or may not be "material" pursuant to 37 C.F.R. § 1.56. The submission of these documents by Applicant should not be construed as an admission that any such patent, publication or other

information referred to in these documents is material or considered to be material (37 C.F.R. § 1.97(h)), or even qualifies as "prior art" under 35 U.S.C. § 102 with respect to this invention, unless specifically designated by Applicant as such.

The filing of this Information Disclosure Statement should not be construed to mean that a search has been made or that no other material information, as defined in 37 C.F.R. § 1.56, exists.

This Information Disclosure Statement is being filed in accordance with 37 C.F.R. §§ 1.97(c) and 1.98. A check in the amount of \$180.00 to cover the fees designated by 1.17(p) is included. The Examiner is hereby authorized to charge any deficiencies or any additional fee required by this paper to A2D L.P.'s Deposit Account No. **50-1636**.

Respectfully submitted,

Dated:

August 30, 2002
